Ashley Tisdale, Love Me & Let Me Go

I am feeling lights out
u am feeling shut down
and when I speak up, nothing wanna come out
I been chain up to
I been chain up to
 my mind
I am tryna wake yup
and find a new love
and tell the old me that I;ve had anough
tryna leave it all
leave it all behind

I've been looking for the nightlight switch
I've been feeling like I'm over it
When feelings control me, they ain't gonna hold me back

let me and let me go
let me and let me go
let me and let me go
walk away, finale let me breathe
stop being so absessed with me
let me and let me go
let me and let me go

let me go
let me go
let me go
let me go
let me go
let me go
let me go
let me go
let me go

thank you for the bad Times and the land mines
and them feelings that came like landslides
running down my mind
running down my mind each night
thank you for the dark days and the tidal waves
making real life so sideways
really been a wild
really been a wild, wild ride

I've been looking for the nightlight switch
I've been feeling like I'm over it
When feelings control me, they ain't gonna hold me back

let me and let me go
let me and let me go
let me and let me go
walk away, finale let me breathe
stop being so absessed with me
let me and let me go
let me and let me go

let me go
let me go
let me go
let me go
let me go
let me go
let me go
let me go
let me go
