Joe Brooks, Getting Away

We've been sitting around just a lil bit too long,
I've seen, I've seen you more alive,
Seems like we've stopped,
Keep on watching the world, spinning without us
Get up, grab your smile cos todays gonna go our way,
This luck, I know it's gonna change,
So lets get lost,
Waiting for the world to spin us around yeah
And the days go on and on and on,
We gotta get out while were still young
Said we're getting away,
Said We're getting away
Said we're getting away,
Said We're getting away
The sun is shining in my face,
It's blinding all my fears away,
The wind sits high in your hair,
Living life without a care yeah yeah
And the days go on and on and on,
We gotta get out while we're still young.
Said we're getting away,
Said We're getting away,
Said we're getting away,
Said We're getting away
Said we're getting away,
Said We're getting away,
Said we're getting away,
Said We're getting away
Said we're getting away,
Said We're getting away,
Said we're getting away,
Said We're getting away
Said we're getting away,
Said We're getting away
