

3 Feet Smaller, A Very Special Christmas Day

On this very special christmas day, where everything seems to be ok.

I'll be home with my mom and dad cuz that's where I belong every day (of the year)

I stand in front of my christmas tree. I hold my girlfriend, won't let her go away

We're all happy and we're singing songs about father, son and the holy ghost.

Outside snow is flying and all the kids playing around because it's the greatest time of year here in

cuz it's just christmas day, leave away, all the things you hate it's christmas day, leave away, be still

It doesn't matter what you've done wrong it's christmas day and your not alone And all the mistakes

they are all forgotten on christmas day.

Outside snow is flying and all the kids playing around because it's the greatest time of year here in

cuz it's just christmas day, leave away, all the things you hate it's christmas day, leave away, be still

Your not alone on christmas day

cuz it's just christmas day, leave away, all the things you hate

it's christmas day, leave away, be still and have faith

cuz it's just christmas day, leave away, all the things you hate

it's christmas day, leave away, be still and have faith

be still, be still on christmas day
