

30 Seconds to Mars, Seasons

People they come, and people they go
When the leaves change and the colors they show
Can you hold on through the seasons, through the seasons ohhh
Through every high and through every low
A beautiful lie, it never gets old
Can you hold on through the seasons, through the seasons ohhh

My fault, that's the truth, I won't lie
I fucked it all up, now I'm trying to make the wrongs right
I hate that I hurt you
Talk shit, yeah we get out of line
But I get a little warmer when I'm inside
White flag can we truce ohhh

Whatever weather if it rain or shine
Whether it's pain, pleasure, good and hard times
We might go round and round, but I won't back down

People they come, and people they go
When the leaves change and the colors they show
Can you hold on through the seasons, through the seasons ohhh
Through every high and through every low
A beautiful lie, it never gets old
Can you hold on through the seasons, through the seasons ohhh

You slipped a couple times, but it's fine
Cause if I started pointing fingers, you would see mine
I don't wanna judge you
You see from the side, when I'm blind
You're the one I'm calling when I need a lifeline
But I don't wanna lose you

Whatever weather if it rain or shine
Whether it's pain, pleasure, good and hard times
We might go round and round but I won't back down

People they come, and people they go
When the leaves change and the colors they show
Can you hold on through the seasons, through the seasons ohhh
Through every high and through every low
A beautiful lie, it never gets old
Can you hold on through the seasons, through the seasons ohhh

Whatever weather if it rain or shine
Whether it's pain, pleasure, good and hard times
We might go round and round, but I won't back down

(Through the seasons ohh)

Whatever weather if it rain or shine
Whether it's pain, pleasure, good and hard times
We might go round and round, but I won't back down

(Through the seasons ohh)
