

# 38 Special, Something I Need

(Don Barnes-Jim Peterik)

Like the hammer of love the moment that it hits ya  
Like the hair of a dog the mornin after it bit ya  
Like the rough edge of love when it cuts to the heart  
You just gotta let it bleed  
You ain't just somethin I want  
No... You got somethin I need  
Somethin I need.

Like a bath when your dirty, a drink when your dry  
Like the last cigarette before you give up for life  
You know I'm dyin of hunger, in desperate straits  
I know I gotta habit to feed  
You ain't just somethin I want  
No... You got somethin I need.  
Something I need.

Got you in my sights  
We're gonna put it right up the middle  
Cause I can do you right  
You know I want it more than a little  
It's what I need...need ..need

Like a black cup of coffee when you been slammin all night  
They say I need to be quittin but I don't take no advice  
You got me walkin sideways like crab in the sand  
My eyes fixed in a permanent bead  
You ain't just somethin I want  
No... You got somethin I need  
Something I need.
