

5 Seconds Of Summer, Wildflower

Wildflower, Wildflower

I hear you calling out my name
I love the sound
I love the taste
and I can see it in your face
you got a side
you can't explain

you're tellin' me
tellin' me , tellin' me
you wanna come over
that you wanna be
wanna be, wanna be
wanna be closer
I love it when you wear your hair down over your shoulder
cause I wanna hold ya
cause I know where tonight is going

you're the only one who makes me
every time we
tell you what I like
my wildflower

you're the only one who makes me
every time we
tell you what I like
my wildflower

you know you are
my favourite fantasy
a fatal song
waterfall is overflowing

you're the only one who makes me
every time we
tell you what I like
my wildflower

I see the color in your veins
it makes me smile
it makes me shake
I see the shadow in my brain
and I like it looks

you're tellin' me
tellin' me , tellin' me
you wanna come over
that you wanna be
wanna be, wanna be
wanna be closer
I love it when you wear your hair down over your shoulder
cause I wanna hold ya
cause I know where tonight is going

you're the only one who makes me
every time we
tell you what I like
my wildflower

you're the only one who makes me
every time we
tell you what I like
my wildflower

you know you are
my favourite fantasy
a fatal song
waterfall is overflowing
