

# 5ive, Battlesta

Yo I'm a battlestar knight like I'm jedi  
Rough to the tough but I'm sharper than the geam in your eye  
Galactic battlestar like I'm ready  
Ready for the 12 check get steady, on your marks set  
your best to throw you hands high  
Heads to the sky keep your eyes peeled listen for the sign  
A trip stage walk wire, I bring fire till I'm done  
you cause there can only be one  
How many times does it sound like this  
here we come again the microphone specialists  
Action time  
Take back the track rewind  
sing it for me one more time  
[Chorus:]  
If you feel the force throw your hands to the sky  
Put your hands up, get em' up, put your hands high  
If you wanna jump we can give you what you want  
Put your hands up, get em' up, put your hands high (2x)  
I lead the packs like Bruce Wayne leads da batz  
Rocking top hats with my verbal attacks  
yo when I raps boogie down  
can you hear the bell tower ring when you're time travelling from  
The funk that I bring fly wit me  
I'll take you higher when I'm walking over fire, come on follow the messiah  
I run jump skips over battle ships  
Doing lyrical back flips on the stage that I rips  
How many times does it sound like this  
Here we come again the microphone specialists  
action time  
take back the track rewind  
sing it for me one more time  
[Chorus]  
How many times does it sound like this  
Here we come again the microphone specialists  
action time  
take back the track rewind  
sing it for me one more time  
[Chorus]
