A Day To Remember, Show 'Em the Ropes

This is my vengeance for all the wrongs You've formed against us You always get me wrong My whole existence revolves around The progress that we've made And I'll never be walked on again I'm on the edge of the rooftop Thinking nobody will ever know I hope that you'd want to be the one to see The distance from the road I'm on the edge of the rooftop Thinking nobody will ever know I hope that you'd want to be the one to see The distance from the road, the road This is our triumph Over all the forms of filth you've spread We'll never let this go Right from the very start I knew this day would come Tonight's the night we silence you There's nowhere left to run I'm on the edge of the rooftop Thinking nobody will ever know I hope that you'd want to be the one to see The distance from the road I'm on the edge of the rooftop Thinking nobody will ever know I hope that you'd want to be the one to see The distance from the road, the road Let this be your reminder I'm everything that you wanted to be Hope for the best but it's over And you thought you were better than me I'm on the edge of the rooftop Thinking nobody will ever know I hope that you'd want to be the one to see The distance from the road I'm on the edge of the rooftop Thinking nobody will ever know I hope that you'd want to be the one to see The distance from the road The road, the road The road, the road Such a pretty picture Your chalk line on the ground

I hope you die
