

A Fine Frenzy, Lovesick

Sweet as a fox
calm in a crowd
good with a spotlight, she is out
out to be yours
I am a detail, minor detail
so it seems
planting the seeds
of doubt in your mind
she's playing for keeps, but so am I
I'm fighting for keeping us together
I need to believe you
lovesick, only you can fix it
I need you, I need you to stay
You say she's a friend
no friend of mine
i've never been called the jealous kind
but I've got a cause
cuz I am a detail
minor detail oh oh
you are the prize
she's aiming to win
I'm failing to see where I fit in
cuz there isn't room
for three in two now is there
darling listen
The panics distracted
lovesick only you can fix it
I need you, I need you to stay
Bang bang bang
the walls are falling falling
ban bang bang to the dusty rooad
bang bang bang bang
and she keeps on calling calling calling
bang bang bang
headaches, make her go
The panics distacted,
love you only you can fix it
i need you, i need you to stay
yeah
