

# A Great Big World, Oasis

Don't cry  
You're mine  
For forever  
For forever

I need  
You now  
More than ever  
More than ever

Head full of lies  
Sun in my eyes  
You make it easy  
Don't look away  
These are the days  
You gotta believe me

When we're lost in a desert night  
And we're chasing our paradise  
When we can't fight another fight  
We're gonna make it  
You're my oasis

This life  
Is made  
For each other  
For each other

Crossed lines  
Mistakes  
There's no other  
There's no other

Head full of lies  
Sun in my eyes  
You make it easy  
Nowhere to go  
I'm already home  
You gotta believe me

When we're lost in a desert night  
And we're chasing our paradise  
When we can't fight another fight  
We're gonna make it  
You're my oasis

As I roam through the wasteland  
You're the one thing I need  
I see you off in the distance  
You're my oasis
