

A Great Big World, Oasis

Don't cry
You're mine
For forever
For forever

I need
You now
More than ever
More than ever

Head full of lies
Sun in my eyes
You make it easy
Don't look away
These are the days
You gotta believe me

When we're lost in a desert night
And we're chasing our paradise
When we can't fight another fight
We're gonna make it
You're my oasis

This life
Is made
For each other
For each other

Crossed lines
Mistakes
There's no other
There's no other

Head full of lies
Sun in my eyes
You make it easy
Nowhere to go
I'm already home
You gotta believe me

When we're lost in a desert night
And we're chasing our paradise
When we can't fight another fight
We're gonna make it
You're my oasis

As I roam through the wasteland
You're the one thing I need
I see you off in the distance
You're my oasis
