Never Give Up

Living with me
I don't think it would be so bad
This is the first time this year
That I'm not going to make you mad
I'm tired of my conscious
Always telling me to stop sleeping in
But I can't waste a second
On dreams that will never begin
Everyone has a head upon their shoulders
We're losing our pride as we all get older
Everyone has to pick on their saviors
You might not get it right
Or you might realize that its too late
Don't back down
I'm over the past can't you see
Don't back down
I don't really care about before
Before you met me
Is it cool if I see you tonight
There's a thousand questions I want to ask you
If you think that its alright
Everyone has a head upon their shoulders
We're losing our pride as we all get older
Everyone has to pick on their saviors
You might not get it right
Or you might realize that its too late
Don't back down
I'm over the past can't you see
Don't back down
I don't really care about before
Before you met me
So don't take anything for granted
Stand outside in the rain
An excuse you know I planned it
Every ending ends up the same
Don't back down
I'm over the past can't you see
Don't back down
I don't really care about before
Before you met me
