

# A Place to Bury Strangers, You Are The One

Feeling loose, walk and talk, moving fast,  
I take it all, we fall, it's aid and done, so hold on, life is rough  
I wanna be, in the sky, I wanna be, riding high  
Speeding cars, the tearing wind, the burning speed, it breaks my skin

I turn it back, a \_\_\_ sky, moving fast, I wanna die  
I feel the wind, breathe the air, driving fast, I still don't care  
I start to fall, I loose control, I try to turn, I start to roll  
I can't hold on, moving so fast  
I wish I had the chance to do it all again

Believe you are the one, but I was riding away  
I kinda followed the sun  
And it feels so good inside, when you survive  
Faster than an engine, feeling right  
You are the one

I feel the wind, I feel the rain, follow the road, into the lake  
I wana to have it all, now curl it on to fall  
It disappears into the sky, I'm on road, about to die  
I break my face, I break my life,  
I wish I had the chance to do it all again

Believe you are the one, but I was riding away  
I kinda followed the sun  
And it feels so good inside, when you survive  
Faster than an engine, feeling right  
You are the one.
