

A.R. Kane, Spook

A.r. Kane
Miscellaneous
Spook

My head in the clouds just as the silver trip is bending
I'm watching the dolphin and the way that it is wending
Don't try to come up too fast just as your heart is mending
But then the dream is shattered and the spiral's ending

Building little tombs, bashing flies with spoons
Squashing spiders too, let's go to the zoo
Daddy's coming soon, he just left the moon
Thunder's sonic boom, gave to me this tune

Making love with a spermwhale but it's time to go now
Going deeper that asia up to navajo now
My head's full of mischief like pandora's box now
If you want to get in you'll have to cut my locks now

My desire takes me higher,
Electricity makes you look so pretty
Please don't get upset, i like getting wet
Zooming like a jet is a marmoset

So take me by the hand and tell me that you love me
Take me by the hand and tell me that you love me
Take me by the hand and tell me that you love me
Take me by the hand and tell me that you love me
