

# A1, Scared

What's your favorite scary movie?

(the boys add in some of their own "scary" noises. so cute.)

I've walked the jungle  
fought a lion with bare hands  
The Prince of Darkness  
I'm a far better man

I've crossed the desert  
Never feared for my own  
Where lightning strikes - I'll always go

Eye of the tiger, not afraid to attack  
Left Frankenstein - flat on his back  
That witch's magic, just ain't nothing to see  
'Cuz you're the one who cast a spell onto me

If you're looking for danger, here I come  
You better look out, it's just begun  
There's something that I want you to know

The one thing that I'm scared of is losing hold of you  
I get the shivers down my spine  
Feel my body turning blue  
The feeling is so frightening  
It's driving me insane  
The one thing that I'm scared of...  
(Is losing hold of you)

(The Terminator) said he'd never be back  
Fight fire with fire, that's a natural fact  
Tell me your nightmare, and I'll give you my dream  
I will protect you - whenever you scream

chorus If you're looking for danger, here I come  
You better look out, it's just begun  
There's something that I want you to know

To let me know  
Sometimes we all get scared  
I'm telling you I can't let you go - oh!
