

# Aaron Carter, Come Follow Me

(Come On)

That's not the way to rock  
Do you want, what we got  
Tag along, crank it up  
Sing a song, you know we don't stop

Yo my man. Get behind the wheels  
Time to cruise. You snooze, you lose  
Let me introduce you to my friends  
In the other car right behind us  
And my other friends in the car  
Right behind them, start a Caravan  
Crank it up and let it pump  
We're gonna make a kriss kross jump  
It's the drivin' anthem  
And when it's time to hit the road  
Feel the heat, crash  
Ready to explode

When the beat rocks  
It's high like so  
Repeat after me  
Didyum didio  
When the show starts  
It's high like so

Repeat after me, sing it loud  
Everybody go... didyum didio  
Everybody like this ya'll  
Everybody like that ya'll  
Everyone come and follow me  
Everybody like this y'all  
Everybody like that y'all  
Everybody come and follow me

The caravan rolls out to the movies  
We need atleast 10 rows  
As we roll east

And then it's time to  
Go to the Backstreet show  
Or the Britney Spears show  
Cuz it's starring me, yo  
We'll be in the crowd  
Hypin' up the party  
I want the best reception  
For each and everybody  
So when I hit the stage  
Show me love, don't be rude  
And afterwards get my brother  
Burn rubber dude

When the beat rocks  
It's high like so  
Repeat after me didiyum didio  
When the show starts  
It's high like so

Repeat after me, sing it loud  
Everybody go... didyum didio  
Everybody like this ya'll  
Everybody like that ya'll  
Everyone come and follow me  
Everybody like this y'all

Everybody like that y'all  
Everybody come and follow me

That's not the way to rock  
Do you want, what we got  
Tag along, crank it up

That's not the way to rock  
Do you want, what we got  
Tag along, crank it up  
Sing a song, you know it don't stop

In every single city  
People singing in their cars  
From mommies to daddies  
Who drive cuz they're daddies  
In every single bus, baby  
To and from school  
Everybody feels a rush  
And it's time to act cool

When the beat rocks  
It's high like so  
Repeat after me didiyum didio  
When the show starts  
It's high like so

Repeat after me, sing it loud  
Everybody go... didyum didio  
Everybody like this ya'll  
Everybody like that ya'll  
Everyone come and follow me  
Everybody like this y'all  
Everybody like that y'all  
Everybody come and follow me

[Repeat chorus and fade...]
