

Aaron Carter, Go Jimmy Jimmy(Sound Track Jim

Jimmy
Jimmy who?
Neutron, Neutron, Neutron

Here we go
Verse one

I flip the switches In the atomosphere
In my drop top market Doin' my ten
I'm a little shootin' Star in the makin'
Droppin' Neutron bombs Never fakin'
Cuz I'm headin' for the top No mistakin'
And my destiny's mine For the takin'?????
Like a black hole Wanna act up
I'm a big shot Make a big move
Comin' up Take control of my life
Like a spaceship But I still keep it
Real with my parents Don't lip, won't trip
While I'm on Earth When I'm in the
Milky Way Just trust, givin' up
Ain't an option Where I'm goin'
Ain't no man ever been Light speed, light years
I'm ahead of them

Chorus
Go Jimmy Jimmy
That's the voice I hear inside
Everybody let's bounce
Straight up come along for the ride
Go Jimmy Jimmy
To the rescue Through the big blue sky
Be back before I leave
It's Jimmy Neutron time

No time for jittering It's my turn
At bat like Robin Since I'm in
The big leagues No stoppin'
Like a comet On a mission
I'm movin' Cuz I'm doin' my thing
Out lookin' for the big bang Do you wanna hang?
Make a decision How are you livin'?
Don't be a quitter I'm gonna fly
Forget about physics Gravity mean nuthin' to me
Work can't stop me Is it just me?
Hold me back Yeah right, let's see
Whatever I say I trust I'll be
So let's ride out, slide out
On a sunbeam Time ain't nuthin'
When ya got big dreams It's your world, universe
Woooweee
Split them atoms Blow the scene

Chorus repeat

Uh, do your thing
Uh, do your thing
Uh, do your thing
Anything goes down 'round here
Uh, do your thing
Uh, do your thing
Uh, do your thing

You know I got to make you dance

Chorus repeat(2x)
