

# Aaron Lewis, Let's Go Fishing

Got to work two jobs and rob a bank  
To put food on the table and gas in your tank  
And everybody knows who's to blame  
But I ain't gonna worry about none of that shit today

So let's go fishin', let's go wishin'  
On a star in the dark in the middle of the night  
The world's gone crazy and the shit ain't right  
Let's go runnin', a little backwoods hidin'  
It's all so fucked up I can't stand it  
Let's go Karen, let's go Brandon  
And let's go fishin'

We can make America great again  
Turn right on a two track and turn off CNN

And let's go fishin', let's go wishin'  
On a star in the dark in the middle of the night  
The world's gone crazy and the shit ain't right  
Let's go runnin', a little backwoods hidin'  
It's all so fucked up I can't stand it  
Let's go Karen, let's go Brandon  
And let's go fishin'  
Let's go fishin'

Take a foot off the gas  
This ain't a Nascar race  
Just kick it on back  
With a smile on your face

And let's go fishin', let's go wishin'  
On a star in the dark in the middle of the night  
The world's gone crazy and the shit ain't right  
Let's go runnin', a little backwoods hidin'  
It's all so fucked up I can't stand it  
Let's go Karen, let's go Brandon  
And let's go fishin'  
Let's go fishin'
