

# Aaron Neville, I'm Waiting At The Station

Train whistle blowin' around the bend  
But I can hear it comin' in  
That's the train my baby's on  
But now she's gonna bring her home  
Got a letter yesterday  
This is what she had to say  
Meet me at the station a quarter to ten  
Let's try it over again  
Waitin' at the station happy as can be, now  
Waitin' at the station for my baby  
My lonely nights are over from this day on  
Since my baby's coming back home  
The train pulled in a few minutes late  
But I didn't mind that little wait  
That train is carrying medicine for heartaches and pain  
For this lonely man  
Everybody's gettin' off one by one  
Tellin' their friend where they've been and what they've done  
But where is my girl, everybody's off the train  
She made a fool of me again  
Waitin' at the station sad as can be, now  
Waitin' at the station for my baby, now  
My nights will still be lonely on and on  
Since my baby didn't come home  
Waitin' at the station sad as can be, now  
Waitin' at the station for my baby  
My nights will still be lonely, on and on  
Since my baby didn't come home  
Waitin' at the station sad as can be, now  
Waitin' at the station for my baby  
My nights will still be lonely, on and on  
Since my baby didn't come home
