## Abandon, All Because Of You

I'd love to tell You something You've never heard It's not gonna happen So where do I begin to look for the words? To try and describe how You walk beside us

You walk beside us Your grace defines us

And we belong to You Hear all Your people singing

We bring a song of praise to You

Hear it coming through

You make the air worth breathing You take the old and make it new

It's all because of You

I can't explain the way that You change a heart

But I see the difference

And I'd give all that I have to know who You are

To live in Your presence

And join the chorus

Of believers

Learning how to worship You

Overtake us

Recreate us

Do with us what You want to

We are living We are breathing

All because of You Hear all Your children singing

We've come to show our love for You

& amp; Isquo; Cause You are the only reason that we are living
