

# Abandoned Pools, Sunny Day

Hiding inside a crowd  
My head is inside a cloud  
Go where the music's loud  
And all these talking heads are  
Blurred in violet hues

Another sunny day  
Another sunny day

She doesn't know wrong from right  
She doesn't know when to fight  
She only knows that tonight  
There's always someone out there  
She'll never be alone

Another sunny day  
Another sunny day  
Come on, get out  
Another sunny day  
Come on, get out  
Another sunny day

(Talking:)  
You can serve god and man  
No more effectively then by getting rich.

Get off the bathroom floor  
Daddy's not here no more  
I'm showing you to the door  
Enough of always numb  
And always insecure

Hiding inside a cloud  
Go where the music's loud  
My head is inside a crowd  
And all this talk of rockstars  
Really makes me sick

Another sunny day  
Another sunny day  
Come on, get out  
Another sunny day  
Come on, get out  
Another sunny day  
Come on, get out  
Another sunny day  
Come on, get out  
Another sunny day

Come on, get out
