

Abandoned Pools, Sunny Day

Hiding inside a crowd
My head is inside a cloud
Go where the music's loud
And all these talking heads are
Blurred in violet hues

Another sunny day
Another sunny day

She doesn't know wrong from right
She doesn't know when to fight
She only knows that tonight
There's always someone out there
She'll never be alone

Another sunny day
Another sunny day
Come on, get out
Another sunny day
Come on, get out
Another sunny day

(Talking:)
You can serve god and man
No more effectively then by getting rich.

Get off the bathroom floor
Daddy's not here no more
I'm showing you to the door
Enough of always numb
And always insecure

Hiding inside a cloud
Go where the music's loud
My head is inside a crowd
And all this talk of rockstars
Really makes me sick

Another sunny day
Another sunny day
Come on, get out
Another sunny day
Come on, get out
Another sunny day
Come on, get out
Another sunny day
Come on, get out
Another sunny day

Come on, get out
