

# Abby Lee, Rescue Me

Rescue Me  
Won't you come and rescue me?

I can't sleep  
Everything is broken  
Hanging on every word you spoken  
And sometime it's quiet  
I remember all ..  
A place myself around myself  
The place where I should have been  
I am so ...  
You're not here with me  
I'm reclusive, darling  
Won't you come and rescue me?

I can still see your shape under my pillow  
I can still see your eye reflection on my window  
I can still feel your skin and the way it react to mine  
But your not here, ...  
For another time

I am so ...  
You're not here with me  
I'm reclusive, darling  
Won't you come and rescue me?
