ABC, Show Me

Once I needed your love But that was just one thing left on my mind Then I needed to feel you near me You said:"Don't have the time."

The cowboys at the rodeo
The rhine-stones on that Romeo
Your theme tune on the radio
Souvenirs that only go to

_ chorus:

Show me, show me Show me that your mine Show me, show me Give me just one sign Show me, show me Second that emotion Show me, show me love

Since we're skimming the surface darling Now's time to get in deep You've opened up the envelope But there's still one secret you keep

A pirate station or the late night show A sunken ship with a rich cargo Buried treasure that the four winds blow Wind and rain it only goes to

_ chorus

Some things are hidden Some things you'll see Make me know Signal to me

Nine out of ten, in every case She might look pretty but there's make up on her face

Show me, show me love And you can be free And you could be free. Free. Free.

Where are the diamonds?
Where are the pearls?
Where are the things that you took from this world?

These are the ribbons
These are the curls
These are the things that you took from this world
