

Aborym, Me(N)Tal Striken Terror Action

The program is always on the fucking screen
Robot pilots destroy the buildings
Burning bodies jump out the windows
The suicidal terrorist is the new idol
Mental Terror Action
Is the new infection
Mental Terror Action
Created illusion
Processing..
That program is to die
By your own hands
That program is to fight
Against yourself
Let me offer my most humble obeisance
To the Supreme Lord of Destruction!
Never been on the fucking Moon
Never define the speed of light
Atom bomb into the fucking assholes
So many questions I haven't mentioned
The program is shining on the fucking screen
To be the slave of false ideologies
Better to believe in the anti-god
And watch everything from the inverted side
Mental Terror Action...
