If You Want Blood

Bad Boy Boogie

On the day I was born

The rain fell down

There was trouble brewin' in my home town

It was the seventh day

I was the seventh son

And it scared the hell out of everyone, did me too

I said up, and they said down

They said straight, and I said round

They said lost, and I said found

I do the bad boy boogie, all over town

Bein' a bad boy ain't that bad, believe me

I had me more dirty women than most men ever had

I just line 'em up, and I knock 'em down

And they all came a runnin' when the word got around, they're runnin' fast

I said up, and they said down

I said straight, and they said round

I said lost, and they said found

I was a bad boy

I wouldn't tell you no story

Tell you no lie

I was born to love till the day I die

All you women, come along with me, oh yeah

I wanna show you how good a bad boy can be

I said up, and they said down

I said straight, and they said round

They said lost, and they said found

They said free, and I said bound

Bad

Just a bad boy

Just a bad boy

Do the bad boy boogie

I'm a bad boy
