

AC/DC, CAN'T STAND STILL

AC-DC
Stiff Upper Lip
CAN'T STAND STILL
Stiff Upper Lip (2000)
(Young, Young)

(Woho!)

When I see a pretty woman, you know it gives me a thrill
When she's tellin' me to hold her, you know I can't stand still
And you won't need a doctor, 'cause it'll cure all ills

And when I hear your noisy party, you know it give me a chill
It gets Rockin' and a' Rollin', and I can't stand still
From mornin' til midnight, you know I can't stand still

You know I can't stand still
I can't stand still
You know I can't stand still
I can't stand still
From mornin' til midnight, you know I can't stand still
Oh yeah

- solo -

Well when it comes to sippin' honey, you know I'm drinkin' my fill
And if I'm left without a bottle, you know I can't stand still
From mornin' til midnight, you know I can't stand still

You know I can't stand still
I can't stand still
I can't stand still
You know I can't stand still
From mornin' til midnight, you know I can't stand still
You know I can't stand still
I can't stand still
Babe I can't stand still
I just can't stand still
From mornin' til midnight,
you know I can't
you know I can't stand still

(thank you lads)
