

# AC/DC, This House Is On Fire

Yonder she walked

Yonder she walked, hittin one of dream  
A little tongue in cheek, hot poisonality  
She bring on the flames, and it's burning and burning  
My body's aching, tossing and turning

House is on fire  
House is on fire  
This house is on fire  
And the flame is gonna burn you, you

She got me running for shelter  
Needin' quarantine  
She got me red hot and wired  
Call an emergency  
She bring on the flames, and it's burning and burning  
My body's aching, tossing and turning

House is on fire  
House is on fire  
This house is on fire  
And the flame is gonna burn you, you

You got me burning and burning  
You got me tossing and turning

Burn, burn, burn  
This house is on fire, House is on fire  
This house is on fire, House is on fire  
This house is on fire, This house is on fire  
House is on fire  
And the flame is gonna burn you,  
The flame is gonna burn,  
You're gonna burn you
