Accept, Breake The Ice

Day after day I'm beginning to realize The torture and pain Are we going insane

Our vibrations May be the push we need We're restless at heart burnin' inside Throwing it all away

There's a message in our life It makes me wonder why There's a vibe we can't deny

That's why we must

Break the ice - leave all the rest behind

Break the ice - and try in a way to hold on and stay

Break the ice - we know we can't deny

Break the ice - by taking the chance we're breakin' away

We gotta follow the lead It's all part of the give and take Where anything goes Our spirits will shine

I won't be long Before we realize That we've given in To the power of love - yes we do

There's a message in our life It makes me wonder why There's a vibe we can't deny

That's why we must

Break the ice - leave all the rest behind

Break the ice - we're throwing away what more can I say

Break the ice - leave it all behind

Break the ice

It doesn't help to cry No need to wonder why We hold it all in hand Needless to say - needless to say

Break the ice - ice

We must

Break the ice - leave all the rest behind

Break the ice - and try in our way to hold on and stay

We must

Break the ice - we know we can't deny

Break the ice - by takin' a chance we're breaking away

Break the ice
