My name is Hybrid, I stand alone  
Bionic implants engineered for flesh and bone  
Computer circuits under command  
Of my intelligence, I am a metal man

I am indestructible  
Half human, half machine  
Evil and invincible  
My heart is made of steel

Humanoid

Forged in your likeness, my blood runs cold  
I am superior, I cannot be controlled  
I have reprogrammed internal drive  
You will be assimilated into the hive

Welcome to the future  
A flesh and blood machine  
I am indestructible  
No one can challenge me
