

# Accept, It Ain't Over Yet

Why would you leave me - I will never understand  
I'm searchin' for a reason  
You gotta stop messin' with my mind  
Messin' with my head

I can not believe you - walkin' out on me at all  
I've always been your backbone  
I was there to catch your fall

I don't believe it - it just ain't over yet  
It ain't over yet  
I don't believe it - it just ain't over yet

It might be wishful thinking - you would change your mind  
A voice in my soul says no - you're not the kind  
The power of illusion  
Keeps me going every day  
I've got no explanation  
How can I make you stay - it just ain't over yet

Ain't over yet  
I don't believe it - it just ain't over yet
