

# Accept, Living For Tonight

Always on the run  
Where you are going, what you are doing  
Looking just for fun  
Love the twilight, love the dark

Rats - are all around  
And I am waiting for a head  
Take what you want  
And if you need it take it now  
Guess it will be just alright

I'm living for tonite - tonite  
Living for tonite - tonite

Working out my way  
Find some ramp-rats, find some victims  
Bad games all night long  
We need to hid it just for fun

Games - we shouldn't play  
And if you need some help - just wait  
I'm going out into the dark  
Guess it will be just alright

I'm living for tonite - tonite  
Living for tonite - tonite

Gimme your body  
Take what you want  
Can't wait anymore

I'm living for tonite - living for tonite  
Tonite - living for tonite  
Tonite - living for tonite  
Tonite - I'm living, living for tonite
