

# Accept, Objection Overruled

Members of the jury  
Your conclusion has been drawn  
Defendants should be sentenced  
But you just let'em go

The city is a timebomb  
The judge has lit the fuse  
Vigilante breakout  
Gotta tighten up the noose

Your honour, please  
We want the truth - nothing but the truth  
Your honour, please

Objetion overruled - let's hang'em high  
Overruled - horsewhip'em

I call upon the nation  
To take the whitness' stand  
Too long you've stood in silence  
Now justice will be done

Hey you - the jury members  
You let the people down  
We trusted your sincerity  
One finger at the law

Your honour, please  
We want the truth - nothing but the truth  
Your honour, please

Objetion overruled - let's hang'em high  
Overruled - horsewhip'em

The judge's hammer falls  
Eruption in the court room  
The cry goes up: "It's anarchy!"  
Just stick your bloody rules

The judge's hammer falls  
Let's loot them out of office  
Some heads are gonna roll  
The cry goes up: "It's anarchy!"

Your honour, please  
We want the truth - nothing but the truth

Objetion overruled - let's hang'em high  
Overruled - horsewhip'em  
Objetion overruled - this is a travesty of justice  
Overruled - appeal to a higher court

Objetion overruled - let's take it to the senate  
Overruled - in the name of sanity  
Objetion overruled - are you crazy  
Overruled - are you crazy
