Accept, Sodom & Emp; Gomorra

Ever since the stone-age Mans been on the hunt

We were born to kill

Fighting for survival

All in self-defence

It was do or die

Now were living in jungles

The concrete age

A maximum overdose of pleasure and

pain

Self-inflicted - life corrupting

Antisocial - controversial - living

in sin

Sodom and Gomorra

Let me tell you what I see

Sodom and Gomorra

Got not law and order

Ruled by anarchy

Its here to stay

Chaos in the classroom

Kids are killing kids

Getting outta hand

Mothers and fathers - the sickening

ones

Raping the children

At the end of a gun

Self-inflicted - life corrupting

Antisocial - controversial -

living in sin

Sodom and Gomorra

Let me tell you what I see

Sodom and Gomorra

Were in a burning hell for all eternity

Sodom and Gomorra

You mustnt look back

To Sodom and Gomorra

Dont you look back -

to the essence of evil

This universe of hatred

Aggression is the force

Heading for oblivion

Were on collision-course

Evolutions over

The devil has prevailed

Heaven screams for vengeance

This is judgement day

Self-inflicted - life corrupting

Antisocial - controversial -

living in sin

Sodom and Gomorra

Let me tell you what I see

Sodom and Gomorra

Forever ruled by anarchy

Sodom and Gomorra

Forever damned to purgatory

Sodom and Gomorra
