

# Accept, Stone Evil

They terrorize and  
tyrannize democracies  
Their narrow minds still nothing  
learned from history  
The seeds of hate acquired from  
their ancestry  
Spreading like a cancer in societies

They've got the poison inside  
Rivers of pesticide  
Skin-headed minions -  
they're deaf, dumb and blind  
Machind-like in body - robotic in mind

Stone evil - inherited sin  
Stone evil - infected from within

They can't leave it -  
they can't break the spell  
Under orders to obey  
It was meant to last a thousand years  
It took the world into dismay

Stone evil - stone evil

If you're gonna throw the torch at us  
Don't expect to not get burned  
It's time to stand - and fight the right  
This is the lesson we have learned

They're marching to a different beat and glorify  
The darkest times when innocent were crucified  
They paralyze and sterilize the masses' minds  
They desecrate man's dignity - desensitize

They've got the poison inside  
Rivers of pesticide  
Skin-headed minions - they're deaf, dumb and blind  
Machine-like in body - robotic in mind - evil

Stone evil - inherited sin  
Stone evil - infected from within  
Stone evil - inherited sin
