

# Accept, Too High To Get It Right

Getting everything is easy for you  
Fail for anything is something you can't do  
If it doesn't work in the way you want it for  
You start dreaming until it's right

Lie is lie -- and truth is truth  
You'll turn it 'round, let someone else go down  
You won't remember and no one would wonder  
How you change it upside down

Too high to get it right  
(too high to get -- too high to get)  
Too high to get it right

(too high to get it right) -- too high to get it right  
(too high to get it right) -- to get it right  
(too high to get it right) -- too high to get it right  
(too high to get it right) -- to get it right

To get it right

You can't deny it you're leaving your world  
You are so restless, who's the one who's hurt  
Living in your dreams and who seems to care  
Cheating you is easy, 'cause you don't understand

Holding on -- letting loose  
Don't you feel that you are confused  
Too many words -- not spoken out  
Too many things you've not thought about

Too high to get it right  
(too high to get -- too high to get)  
Too high to get it right

(too high to get it right) -- too high to get it right  
(too high to get it right) -- to get it right  
(too high to get it right) -- too high to get it right  
(too high to get it right) -- to get it right

(too high to get it right) -- too high to get it right  
(too high to get it right) -- to get it right  
(too high to get it right) -- too high to get it right  
(too high to get it right) -- to get it right

(too high to get it right) -- too high to get it right  
(too high to get it right) -- to get it right  
(too high to get it right) -- too high to get it right

(too high to get it -- too high to get it -- too high to get it)

Too high to get it (right)
