Accuface, Pure Energy

Pure energy... (Vocalization)

We're nothing but two lost souls when We set out without an ending Everyone thought we were wasting time Oh, it was such a struggle that never ended On no one else, we were dependent We did all we could to get it right

On an outbound train The breaks from yesterday Oooh... I always wanted to feel this way

On a sky-high plane Hotter than all the sun's rays And it's known to be We are always meant to be released To pure energy Pure energy

(Vocalization)

Pure energy... (pure energy) (repeat)

Found ourseleves in a situation Yet there always was a complication What we wanted was so hard to find So we had to keep on moving Only time was time for losing Couldn't waste a minute of our lives

We've been travelling for days Now we're so far away Oooh... only stars will light our way

In this close to lonely world Sometimes I'm just a lonely girl But you gotta know that we Were always meant to be released To pure energy

Pure energy (pure energy) (repeat)

(Vocalization)
