

Across The Border, Sun, Moon And Stars

Sun, golden sun, send us your rays
sun, golden sun, on all our ways
Golden sun, warm our heart and every part
on this green and blue world card

Moon, silver moon, show me your face
moon, silver moon with all your grace
silver moon spend me light in the night clear and bright
watch over me and rule the tide

little man sing a song, before we're all gone,
man on the moon sing a song

stars, shiny stars let your dreams rain to me
stars, shiny stars, to sleep and see
shiny stars, shine and rise, divine and wise,
send a shooting star, then close my eyes,
send a shooting star, then close my eyes
