

# Ad Infinitum, Fire And Ice

Dancing together  
Building forever  
Dancing together  
Building forever

Take my hand  
Bring me again to your paradise  
Our little games  
Together we play  
They make my smile  
You touch my skin  
I leave the ground

Watch the moon shining in your eyes  
You kiss my lips  
I am up in the sky  
I believe in you and I

Above the clouds  
Among the stars  
We'll draw tomorrow  
Cause we'll be!
