

Adam Brand, My Minds Made Up

We'd better stop before we go
Look to the left and right and go a little slow
Take some time just to see If we are really meant to be
The whole world says it's you and me

Hey little girl when you talk that way
My minds made up and I have to say
You're the one I'm dreaming of
I finally find myself in love

All it takes is one kiss
To make my heart melt down like this
My walls come on down Like Jericho baby, you tore them down
You turned my world upside down

Frankie and Johnny, Jack and Dianne
Lois Lane and Superman
My pretty woman, my little white dove
My guardian angel sent from Heaven above
