

# Adam & The Ants, Kick

See a nation on it's knees  
And it's heritage dead  
See a nation needing civilization  
Just like a hole in the head  
One race, today, one show, kick  
So now you're trying it on me  
But I'm aware of the plan  
To save the man you have to kill the Indian  
By simply shaking his hand  
One race, today, one show  
One race, today, one show  
One race, today, one show, kick
