

Addict, Nobody Knows

All designed for my downfall
Fortified but for how long
Everything I want nothing I need
Poverty is hard wealth's a disease
In control I'm not in control
Stranglehold
Nobody knows the trouble I'm in
Happiness is wafer thin
I'm in love until I'm not
Less content the more I've got
Play too much to want to stop
All that's good I've given up
Takes a while to realise
Mischievous does what love defies
In control, I'm not in control
Swallowed whole
