

# Addison Rae, Obsessed

You turned our song down baby what for  
You had lit candles on the sadhboard  
Red roses growing out of the door  
Wanna say something ya never said before

We were driving down sunset  
You know I like fast cars  
Past by where we first met  
Damn we made it so far  
Red eyes from the red light  
And that just set the mood  
You said you're obsessed with me  
So I took a second and said me too

I am obsessed with me as much as you  
Said you'd die for me  
I'd die for me too  
And if I lost you I'd still have me, I can't lose  
When you say that you're obsessed with me  
Me too

I did my hair like waves on the beach  
This dress so tight you can't even speak  
My heels so high you might get a nosebleed  
Music's so loud but I hear your heartbeat

We were driving down sunset  
You know I like fast cars  
Past by where we first met  
Damn we made it so far  
Red eyes from the red light  
And that just set the mood  
You said you're obsessed with me  
So I took a second and said me too

I am obsessed with me as much as you  
Said you'd die for me  
I'd die for me too  
And if I lost you I'd still have me I can't lose  
When you say taht you're obsessed with me  
Me too

I'm obsessed with me as much as you  
Say you'd die for me I'd die for me too  
And if I lost you I'd still have me I can't lose  
When you say that you're obsessed with me  
Me too.
