Adele, All Night Parking (Interlude) (with Erroll Ga

I know you've got things to do
I do too!
I just want to spend all my time with you
Feels so good!
I'm so hard to impress
Don't leave me on this stretch alone

When I'm out at a party I'm just excited to get home And dream about you All night long

I don't know how you got through to me I'm so cold
It's all happening so easily
Like "oh my god!"
It's so hard to digest
Usually I'm best alone
But every time that you text
I want to get on the next flight home
And dream next to you
All night long

Maybe it's the way you remind me of Where I come from Or how you make me feel beautiful And then some The sight of you is dramatic One glimpse and I panic inside I get lost in our hours Cause you possess powers I can't fight That's why I dream about you All night long
