

Adrian Furby Trio, Col Lin Thinks Its A Real Job

On the World Wide Web
Finding out if the hospitals are Y2K compliant
He goes out to the country
And checks out the buffets
And is writing a guide to cute nurses
He thinks its a real job
A real job
A real job
But its at Uni, So it
t can't be.
Sometimes he has to wear
pants.
Sometimes he has to wear
A tie.
So he
Thinks its a real job.
Thinks its a real job.
Col Lin thinks its a real job.
But its at Uni, So it can't be.
That's OK, everyone needs to dr
eam
And his job will end around about the same time
All the embedded circuits that he missed end too
And then he can find
A real job.
A real job.
Col Lin thinks its a real job.
But its at Uni, So it can't be.
