

Adventures, The Trip to Bountiful

The moon was shining bright above us
The flames danced to sky and our old town
Breathed a knowing sigh, a wreath to our love
Golden Days and warm nights
Dancing in the streets to lift our hearts
And to ease our minds, Save me save me
Hey! Seemed the world stopped spinning round
And the sky came tumbling down
As we listened to the sound of summer
You gave me hope when I was down
I was lost and I was found
We were living through, the sound of summer
The sound of summer
People watched and waited
And wondered if their lives could be the same
And if they would see their children smiling
Please stay close beside me
Cos nothing on this earth can touch you now
Oh you shine so bright, my sorrow's fading
