

# Aerosmith, Light Inside

Boo-ya  
There's a place in the way outis sphere  
Do ya  
Want to burn the midnight oil?  
Does it fool ya  
When you think there's no way  
Out of here  
Let it pull ya  
From the outside to within

The light inside is burning bright  
The light makes everything all right  
The light inside is burning bright  
The light inside, oh yeah, all right

May I  
Introduce you to my point of view?  
Me, I  
Wanna get under your skin  
I wanna thank you  
For the pleasure that I get from you  
I wanna drag you from the outside to within

The light inside is burning bright  
The light makes everything all right  
The light inside is burning bright  
The light inside, oh yeah, all right

The light inside is burning bright  
The light makes everything all right  
The light inside is burning bright  
The light inside, oh yeah, all right

The light inside is burning bright  
The light makes everything all right  
The light inside is burning bright  
The light inside, oh yeah, all right
