

After Crying, Madrigal Love Part One

Love Try Lose Die
The heaven can't be made from sky
So happy end is neither on your way nor mine
Choose well Lie tell
An ordinary game for hell
If you must try another way to find your vamp
Who's that who'll help me, by the way?!

Save me from the fool of love
Is love a motion to the sky
In the human just a cry
In first moment tears the soul
The happiness is cruel
C'est la moure
In first moment tears the soul
Oh the happiness is cruel
Who will save me from my slave
Save me from the love if it's not late
Love Try Lose Die
The heaven can't be made from sky
So happy-end is neither on your way nor mine
