

# Against The Current, Another You (Another Way)

I wish there was another you, 'nother way  
And I just can't find the words I should say  
If I wanna tell you how I feel, how I feel  
Without breaking all that we've made

But they say life goes on anyway  
If things should change, oh yeah  
Stuck in the same old melody, of misery  
And don't you remember

All of the times we spent late at night  
We wasted our breath  
We're over and done with  
I couldn't see what you did to me  
It's not for the best  
We're over and done with

And I just can't stay another night  
The last thing that I ever wanted to do  
Was to say goodbye to you

Tell me if it's right or wrong, right or wrong  
Staring at your pictures till the shadows fade  
Acting like there's nothing wrong, nothing wrong  
What we had is slipping away

But they say life goes on anyway  
If things should change, oh yeah  
Stuck in the same old melody, of misery  
And don't you forget that

All of the times we spent late at night  
We wasted our breath  
We're over and done with  
I couldn't see what you did to me  
It's not for the best  
We're over and done with

And I just can't stay another night  
The last thing that I ever wanted to do  
Was to say goodbye to you

You say that I  
I'm the one who's changed  
But I can't keep on  
Living life this way  
You say that I  
I'm the one who's changed  
Yeah...

You say that I  
I'm the one who's changed  
But I can't keep on  
Living life this way  
You say that I  
I'm the one who's changed  
I'll find another you another way

All of the times we spent late at night  
We wasted our breath  
We're over and done with  
I couldn't see what you did to me  
It's not for the best  
We're over and done with

And I just can't stay another night  
The last thing that I ever wanted to do  
Was to say goodbye to you

You say that I  
I'm the one who's changed  
But I can't keep on  
Living life this way  
You say that I  
I'm the one who's changed  
I'll find another you another way
