

# Agathocles, Directed by the Us

beware the US-movies on TV  
all the lies they want you all to see  
cowboy-flicks, killing of indians  
to praise the greatness of their nation  
is the US so great?  
this nation full of hate  
imperialist and racist  
repressing human rights  
is the American dream  
what we really need  
while the homeless freeze to death  
the government sleeps relaxed
